COMMUNITY GARDENS

Our Community Gardens program will open for the fifth season running. This popular program has been growing new gardeners and lots of tasty, nutritious vegetables each year.

The Community Gardens offer the opportunity to raise good fresh food on prime farmland in the company of a community of enthusiastic and dedicated gardeners. Registration is on a first come, first served basis. Call or visit our website for more info.

FORAGING CLASSES

Foraging is the act of finding and gathering wild foods. There are many green things that are safe, delicious, and easy to find once you know what to look

for. Classes are held every 3rd Saturday at 10am and are led by Jonathan Darby and Nathan Carlos Rupley as well as other area foragers and plant aficionados.

Upcoming Events

The Horn Farm Center for Agricultural Education invites you to join us in these upcoming events to help you get **YOUR** garden ready for the 2013 growing season!
