

Production Calendar

Goals

- You will....
 - Learn planting timeline for New Hampshire
 - Learn how to read a crop calendar
 - Learn about days to maturity
 - Learn how to use a calendar to establish planting dates and harvesting dates

12

broccoli

14

Brussels sprouts

kohlrabi

spinach

scallions

Hakurei turnip

Days to harvest maturity

Toronjino F1

Days to Maturity: 55 days

Red Brandywine

Days to Maturity: 78days

If you plant **seeds** April 15 in the greenhouse
And you **transplant** into the garden June 1
Torojino F1 will be ready for harvest on **July 27**
Red Brandywine will be ready **August 24**

Harvest Planning Charts

1. Select a crop you will grow in your farm
2. Write down a target date for harvesting your crop.
3. Use a seed packet or planting guide to find the number of days to harvest.
4. From your target date for harvesting, use a calendar to count backwards the number of days to find planting date

Crop	Maturity Period	Planting Date	Target Harvest Date
<i>Broccoli</i>	<i>68 days</i>	<i>April 23rd</i>	<i>July 1st</i>
Broccoli	68 days	May 13th	July 20th

Succession Planting

Tomatoes

65 days to harvest = 9 weeks

So... Plant on June 1... Harvest on August 2

June
