

World PEAS CSA

Farm Fresh Food for All

See What Our Shareholders Are Saying

“By far the best CSA around!”

“Fresh fruits, vegetables, eggs, and honey are always a great thing, but helping so many people establish their farms and businesses is even better! Big businesses do not come close to competing with the fresh produce and soulful work that comes from World PEAS. What a fun, healthy, and unique way to feed my family, and all while keeping it local.”

“Best money I spent on food this year!”

“I have had several CSA shares over the past few years and by far World PEAS is the best.

You get the most variety of vegetables, fruit and random extras like eggs. The quality of the produce is better and the communication is stellar. Also, it helps that I know my money is supporting an amazing community building organization.”

“You have a unique business model in the growing world of community supported agriculture.”
